Physics Revision Calendar

A day-by-day Physics revision plan to the exam: 10 revision blocks with minor tests, then 5 full-length exam simulations.

Physics

10 minor + 5 full-length tests

Free for everyone

Reach your summit.

Plan: 8 Oct → 6 Dec · Exam 7 Dec 2026 · English edition

60
days to exam

How the plan is built

Three phases · 60 days

DAYS 1–43

Block revision

10 revision blocks, each sealed by a minor test.

DAYS 44–58

Full-length tests

5 full-length, exam-timing tests, each followed by a review day for your error log.

DAYS 59–60

Taper

Rapid high-yield revision and a light final day. Rest days follow until the exam.

DESIGN PRINCIPLES

- **10 revision blocks** — The syllabus splits into 10 blocks, each sealed by a minor test.
- **Minor tests · block-wise** — Each minor test covers the block you have just revised (50 Q · 1 hour).
- **5 full-length tests** — 5 exam-pattern, exam-timing full tests alternate with review days in the final stretch.
- **Review, then re-revise** — Every full test is followed by a review day — log mistakes, re-revise the weak units.

READING THE PLAN

Each day carries a focus type:

Revise | Revise + Test | Full Test | Review | Taper

60	10	15	5
days · 8 Oct – 6 Dec	syllabus units revised	tests in the series	full-length tests

Your test series — 15 tests

Physics

10 minor tests lock in each revision block; 5 full-length exam simulations complete the plan. Every test opens in the CreMento app.
